

## DevSecOps as a Service

**Radius Method** is a mission-driven technology company with a proven track record delivering modern software solutions and operational support across the DoD. Our team combines deep cross-domain expertise in agile development, platform engineering, cybersecurity, and mission systems integration. Our Platform One Solutions Marketplace offering, DevSecOps-as-a-Service, enables rapid acquisition of these TRL9 high-impact capabilities:

- Repeatable IaC with Terraform & GitLab
- Scalable CI/CD Pipeline Development
- ModSecOps
- CloudSecOps
- Legacy-to-Cloud
- Cloud-Native Enablement
- Iron Bank Integration
- Big Bang Deployments
- AI-Driven Security
- Zero Trust Architecture
- Cross-Domain Deployments
- Zarf Air-Gap Ops

### Fundamental Steps for Contract Award

The **P1 Solutions Marketplace** is a digital repository of **post-competition, readily awardable** pitch videos that address the Department of Defense's (DoD) most significant challenges in hardware, software and service solutions. All awardable solutions have been assessed through complex scoring rubrics and competitive procedures and are available to Government customers with a Marketplace account. Government customers can create an account at [p1-marketplace.com](https://p1-marketplace.com).
